## Story Sequencing Ellie's Scarf

Ellie kept him company while he finished the scarf. When he wrapped it around her, it lifted her up and away, back to her living room.

She went down and down to the bottom of the slide.

First, she followed it behind the couch...

...over Rover, her dog...

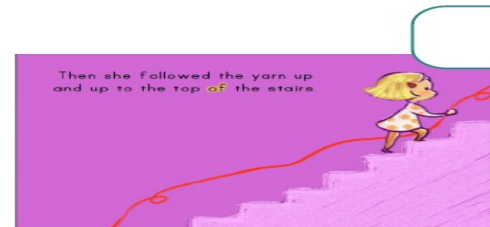

Ellie was playing with her stuffed alligator one day when she noticed some yarn beside the couch.

Her stuffed alligator stood before her, only he was very much alive. "I don't think we've ever been properly introduced," he said. "I'm Eddie. Come in! I was just doing some knitting."

Then she followed the yarn up and up to the top of the stairs.
